CyberVillage Networkers,
United States

Dear Hiring Manager,

Thank you for taking the time to review my application. I must say that being a part of CyberVillage Networkers would be a great opportunity for me to do something that has great impact. I strongly believe technology helps make the world better place for everyone. I started my professional journey two years back as an associate engineer where I was part of deploying the whole software with Agile and SDLC methods. I agree that technical skills are important to solve the problems but what I have learned from my past experiences is that apart from technical skills, integrity, honesty, accountability, leadership, and team working skills are equally important. I can strongly say that I have excelled in all of these skills over these years. I strongly feel that I have a lot more potential to contribute and I would like to do this with CyberVillage Networkers.

Thanks, and Warm Regards,
Akarsh Kashamshetty.
